

Featuring the industry's best-known portfolio of brands, Federal-Mogul Corporation offers Aftermarket Solutions for engine, sealing, steering, braking and routine service repairs for millions of cars, light trucks and commercial vehicles across every continent. Federal-Mogul leads the industry with an unmatched spectrum of installer-preferred brands.

Federal-Mogul promises a world-class fusion of OE engineering rigor, precision manufacturing and global aftermarket knowledge, while offering an impressive array of innovative products that provide the best technology solution across every repair category.

ENGINE SOLUTIONS

- The global automotive aftermarket benefits by having access to innovative engine and fuel delivery technologies from Federal-Mogul that are helping global OEMs deliver new levels of performance and reliability.
- Based at advanced technology centers across North America, Europe and Asia, Federal-Mogul research and development teams utilize the latest tools, materials and designs to create next-generation power-train and fuel delivery solutions that thrive in today's hardest working aftermarket repair environments.

SEALING SOLUTIONS

- Federal-Mogul is a global leader in the development of innovative gaskets, dynamic seals and sealing modules that provide best-in-class performance and reliability.
- Our commitment to developing next-generation technologies keeps Federal-Mogul at the forefront of the design process and first-to-market solutions for replacement components. We pursue technologies that maximize sealing efficiency, increase component service life and solve the issues facing today's automotive, commercial vehicle and industrial engine repair technicians.

STEERING SOLUTIONS

- Confident, precise steering response and motion control are crucial elements of the consumer's vehicle ownership experience.
- While largely "invisible" to the consumer, the components that deliver these characteristics – including ball joints, tie rod ends, u-joints and sealed hub assemblies – are pivotal to ensuring customer satisfaction and loyalty.
- We specialize in developing premium Aftermarket technologies and solutions that exceed the expectations of our customers.

BRAKING SOLUTIONS

- One of the world's largest manufacturers of original equipment and replacement brake components, Federal-Mogul is committed to driving innovation at the automotive and commercial vehicle wheel-end.
- Our global engineering teams specialize in developing advanced, system-based solutions that help reduce customers' overall cost of ownership while delivering quiet performance, durability and low NVH (Noise, Vibration and Harshness) characteristics.
- Federal-Mogul technologies have inspired a variety of innovative Aftermarket Solutions enabling distributors and service providers to create thousands of profitable new customer relationships.

SERVICE SOLUTIONS

- Vehicle service professionals and do-it yourself vehicle maintainers worldwide rely on Federal-Mogul for innovative premium ignition and visibility products. These products deliver maximum performance for virtually every vehicle and are designed to upgrade original equipment performance and increase consumer confidence.
