**Cummins® QSL® Articulated Piston & Cylinder Kits**

**February 25, 2016**

Federal-Mogul Motorparts announces the availability of a new FP Diesel Piston Kit and Cylinder Kit for select Cummins QSL engines. These new kits feature articulated piston crown **FP-4941393** covering the CPLs listed below.

FP Diesel articulated steel pistons feature a proprietary alloy that is forged under high heat and pressure, then cooled and reheated through a special process for a stronger, more consistent microstructure and exceptional durability.

Our pistons use an in-house Manganese Phosphate coating process that produces a custom proprietary coating with better grain size and texture providing greater corrosion resistance against higher sulfate diesel fuels. The coating also improves break-in performance and reduces pin bore scuffing. Other manufacturers use a lesser coating that breaks down faster increasing the chance of corrosion and pin bore scuffing.

Part Number	Description	Application
FP-4089963	Piston Kit w/Pin, Retainer & Rings	QSL CM850 (Construction)
FP-LK13938095	Cylinder Kit Complete FP-4941393 Crown FP-4089644 Ring set FP-3948095 Liner	CPLs 400, 401, 422, 423, 1404, 1731, 1739, 1754, 1793, 8547, 8548, 8640, 8641, 8643, 8647, 8648, 8649, 8650, 8695
