NEW ROTTLER SG80A CNC SEAT & GUIDE MACHINE

PAI is proud to announce the addition of a new Rottler SG80A CNC seat and guide machine for Large Heavy Duty Diesel cylinder heads to be used exclusively on our production cylinder heads.

The Rottler SG80A has a Conversational Touch Screen Control that allows the operator to program the machine to cut at a certain RPM with a specific feed rate. The machine feeds down at a constant feed rate with a precision ball screw and AC servo motor controlled by CNC to programmed depth.

It then dwells on the seat at preset RPM's and number of revolutions, and then retracts, resulting in all valve seats machined to the exact same depth and finish – automatically everytime.

ISO 9001 CERTIFIED

PAI Industries, Inc.
950 Northbrook Parkway
Suwanee, GA 30024
770.822.1000

NOW AVAILABLE: **Dark Navy T-shirt with PAI Shield logo.**

**PAI Shield logo
on the front**

**ISO 9001 CERTIFIED
on the back**

T-shirt is 100% cotton and available in:

Small - NOV 1005
Medium - NOV 989
Large - NOV 1006

Extra Large - NOV 1007
2X Large - NOV 1008
While supplies last

The cost is \$8.00.
